Choose your sink and tap from the finest European brands...

Ceramic is heat resistant, hygienic and extremely resistant to impact making it an ideal choice of material for a kitchen sink. Made in France, using the finest ceramic materials, with a Chambord Sink you can be assured of a quality product. While Chambord's factory is in the forefront of the new technologies to ensure high-quality products, the final guarantee of optimal quality is that every sink is hand finished by a highly skilled workforce with over three generations of experience working with ceramic.

A leading name in its chosen sector, CM works with many of the world's most prestigious kitchen producers, supplying them with sinks in a wide range of models and finishes. Interpreting Italian style and design standards, CM create high quality stainless steel products, each of which is made with attention to detail. The result is a product which is both reliable and showcases the very best of modern design concepts. All CM sinks are manufactured using European 18/10 stainless steel. Stainless steel has always been used on account of its undisputed durability, functionality and practicality. CM's research has optimised these features and their sinks are constantly increasing in popularity because they are made of the highest quality stainless steel.

SCD Luisina specialise in the design and distribution of equipment for kitchens and bathrooms. Founded in 1989, a focus on quality and customer service led to Luisina quickly becoming one of the market leading French suppliers. Luisina are innovators with a focus on design and for Luisina, design is not simply about visuals, it is also about research on new functionality, ergonomics and new materials.

Over the past twenty years, the granite sinks developed and patented by Schock have achieved a highly acclaimed reputation as premium products. Over a million of these sinks are sold each year throughout the world. Schock sinks have been specifically developed to meet the requirements in modern kitchens and withstand everyday use without a trace. The granite used in Schock sinks is combined with high-grade acrylic to produce a hardened composite material that is resistant to cracks and dirt; Schock sinks are extremely durable and easy to clean – red wine, coffee and heavy pans leave absolutely no marks.

Established in 1975 Weber are widely acknowledged as one of Italy's premier quality manufacturers of kitchen taps. The quality of Weber products are recognised internationally and are confidently sold throughout Europe, Asia, Australia and America. Manufacturing under the Weber brand and additionally for many other leading tap brands Weber's long experience stands for top design, performance and style. Weber's in-house R&D laboratory conduct continuous testing on all taps including testing flow rates, pressure shock tests, endurance tests and sensitivity tests. All Weber taps come with a 5 year guarantee which represents the confidence Weber show in their products and gives you the assurance of trouble free performance from whatever tap you may choose.
